Locations and Sessions

By default, a session is a recording with all cameras in one location. To create sessions, your user role must allow session recording.

Main topics

- Pan, Tilt, and Zoom (PTZ) the cameras. This is only possible if the camera has Pan, Tilt, and Zoom control.

- Save PTZ presets

- Change the Video layout

- Change Audio source and volume in preview

- Use Talk to people in location to talk to the persons in the location.

- Specify a default session name

- Create and edit groups to view the session.
